DOORS and PANELS

ULTRAglaze Doors and Panels

Inspired by the top design houses within Europe, integrating sheer style and opulence, Janper are proud to introduce the **ULTRAglaze** range of doors and panels.

Lose yourself within the depths of the mirror finish and admire the sleek seamless lines that only **ULTRAglaze** can offer. Available in either sleekline solid brushed aluminium, matching gloss or even a contrasting edge, nothing can compare to the beauty of an **ULTRAglaze** door.

ULTRAglaze doors and panels are one of the most eco friendly products on the market

ULTRAglaze doors and panels provide a deep gloss finish that is comparable to glass

ULTRAglaze Health & Environment

With **environmental** impact at the forefront of global issues, the **ULTRAglaze** design team has now developed an eco friendly product that can finally be incorporated into your home or office. Unlike painted finish doors, **ULTRAglaze** eliminates the ever growing concern of chemical and solvent emissions. All **ULTRAglaze** doors and panels are constructed using low emission EO **environmentally** accredited board. The highly scratch resistant mirror finish surface is a totally recyclable abs/acrylic that is bonded using state of the art PUR adhesive. All components of an **ULTRAglaze** product are virtually emission and VOC (volatile organic compound) free. This places **ULTRAglaze** at the upper end of eco friendly door and panel products available in the market today and that helps all of us make a better choice for our **environment**.

ULTRAglaze Colour Range
